## Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a facsimile controller comprising a console including a control panel for instructing operation of the facsimile controller, a central processing unit for controlling operation of the facsimile controller; a modem for transmitting and receiving image data in modulated form, the modem comprising memory means for storing an object program containing a plurality of control procedures each of which executes successive communication processes, including a plurality of operational modes, the image data transferred between the memory means and the facsimile controller, switching means for switching between a plurality of operational modes responsive to the object program in accordance with a predetermined unit of the control procedures, and control means for executing the control procedure corresponding to the operational mode just switched as claimed in claim 21. Similar features are claimed in claims 23, 24, 25, 28-32, and 34-50. Therefore, claims 23, 24, 25, 28-32, and 34-50 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2626

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark E. Wallerson whose telephone number is (571) 272-7470. The examiner can normally be reached on Monday-Friday - 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kimberly Williams can be reached on (571) 272-7471. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
